SUMMARY

I'm an aspiring AI and machine learning scientist, always looking for ways to build smart systems that actually learn and adapt. I love diving into new areas—machine learning, deep learning, all the latest stuff—and turning serious research into something that really works in the real world. That's what drives me.

EDUCATION

- ❖ KLE S Nijalingappa College 2023 — 2026
Bachelor of Computer Applications, Bangalore
Pursuing Bachelors of Computer Application to build a strong foundation in programming, AI/ML and web technologies
- ❖ Venkat International Public School 2009 — 2023
Senior Secondary, Bangalore
Completed schooling till 12th grade. Gained strong academic background in science, mathematics and computer science

SKILLS

- | | |
|-----------------------|---------------------------------------|
| Python | Regression |
| Classification | Unsupervised learning |
| HTML/CSS | JavaScript |
| Java | Power BI |
| C | SQL |
| Bootstrap | Git, github and version control |
| Problem Solving | Microsoft Office |

LANGUAGES

- | | |
|------------------------|--------------------|
| English ❖❖❖❖❖ | Hindi ❖❖❖❖❖❖ |
| Malayalam ❖❖❖❖❖❖ | |

CERTIFICATIONS AND LICENSES

- 1.Artificial Intelligence Fundamentals by IBM SkillsBuild
- 2.Elements of AI : Introduction to Artificial Intelligence by University of Helsinki and MinnaLearn
- 3.Machine Learning A-Z : AI, Python and R+ChatGPT Prize[2025] by Udemey
- 4.The Complete FullStack Web Development Bootcamp by Udemey
- 5.Hardware and Networking

PROJECTS

- 1.Petition Voting Website using Node.js, Express, and MongoDB.
- 2.Personal Portfolio website using HTML, CSS, JavaScript and Bootstrap.
- 3.Student Management website using HTML, CSS, JavaScript and mySQL.
